

## VaultPOS™

Convert your Smartphone or Tablet or Laptop into a portable credit card Terminal!

**VaultPOS** is a secure, reliable and flexible wireless point of sales (POS) solution that enables any size business the ability to swipe credit cards, print or email receipts and process PIN-based\* debit card transactions on smartphones, tablets and laptops.

Transactions are processed quickly using encryption and a secure application along with the phone or tablets keypad to enter the amount of the transaction using a tiny credit card reader or **vPrint** to swipe the card.

### Compatible Devices:
