

PcMag™

USB Powered. Bi-directional. Card Reader

PcMag is the ideal device to secure cardholder data from credit cards, debit cards, gift cards, ATM cards and ID cards. And powers itself from the USB port of any PC or Laptop. Built for reliability and installation ease, the PcMag™ secure reader utilizes a security architecture that combines card authentication, host/reader authentication and Triple DES encryption. The result is a solution ideal for retailers that need to meet PCI DSS certification.

PcMag offers advanced security features such as data encryption, card authentication, and device/host authentication to be activated when security requirements demand it. It is the perfect solution for environments that want to “future proof” their platforms for long-term compatibility.

PcMag™ Features:

- ✓ Bi-directional read. USB powered
- ✓ Provides red/green/amber LED for status
- ✓ Triple DES Encryption, DUKPT Key Management
- ✓ Tokenization, device & host authentication
- ✓ Reads ANSI/ISO/AAMVA cards plus some custom formats
- ✓ No third party device driver is required

VaultPOS™

Plug-In. Process. Get Paid

Secure

Encrypts credit card data and reduces.
